

Risk Assessment: Parish Emergency Response

Ver: 2.0 (8th March 2021)

1. Activity being undertaken

Parish Emergency Response / Community Self-Help activities, pre-arrival of the Emergency Services / [Local Resilience Forum \(LRF\)](#) Emergency Response, in response to incidents / emergencies within the parish. Includes Councillors, staff and volunteers

2. Assessor

Mark Hunter, Clerk to the Parish Council.

3. Notes to participants

The Parish Council has conducted the Risk Assessment (below) and introduced control measures to mitigate the identified risks. However, no activity is completely without risk and all participants are reminded they have a responsibility for their own wellbeing and not to place themselves, or others, in harm's way by taking unnecessary risks.

4. Severity and Probability ratings and risk matrix

Rating	Severity	Probability
Low	Injury to person(s) which requires First Aid	Unlikely, but possible
Medium	Injury to person(s) which requires medical assistance (greater than First Aid).	May occur
High	Death or serious injury to person(s)	Highly likely to occur

Risk Matrix	Low	Medium	High
Low	Low	Low	Medium
Medium	Low	Medium	High
High	Medium	High	High

Activities assessed by the matrix as **High** risk must not take place until further mitigations or control measures have been put in place to reduce the risk.

Activities assessed as **Medium** should be undertaken with care.

Remember that just because an activity is assessed as **Low** does not mean that it is risk-free!
